The Swarovski Crystal Sidekick is one of the most trendy and popular accessories to own...so if you have a sidekick, you MUST have it blinged*

We offer two options for crystallizing sidekicks. We prefer that you send in your phone to be crystallized...however, you do not HAVE to choose that option. We carry decal skins or faceplates for your sidekicks that can be crystallized and sent out to you...keep in mind that this is an investment. Sending in your sidekick allows for ultimate bling. It is exceptionally breathtaking. While getting skins or faceplates is also very appealing, and allows for you to keep your phone, it is in no way as detailed as us having your actual phone...

We encourage you to choose a color scheme, but it is not required. Remember, all of our services are fully customizable, so you do not have to go with the designs shown. Our artists can create any custom design that you have in mind!
